

Hi Brian,

I know we spoke at great lengths before the website was rolled out as you helped me with my FSA and my Dental questions. However, today I spoke with Beth Anne. I want to continue to let you know that the customer service and interactions with this company are very much appreciated and unmatched elsewhere! Not only did Beth Anne call to answer my questions very shortly after my email-- she emailed me and left a voicemail with 2 ways to reach her. During the conversation she made personal connections to me and the thoughtfulness and care as well as information that went into the conversation was just astounding!

So---this message is to say thank you! I continue to be more than satisfied with the service the company provides to me as an employee!

Thank you,
Nicole T
